Euro 2024 Homework!

Football fever is sweeping the corridors of St Mary's!
Not only is the tournament a great celebration of sport, but it is a super way of learning about the fabulous continent of **Europe**. **What can you learn about the countries you are supporting during the Euro 2024 tournament?**

We would like you to create your **own original piece of work** about the **countries/teams** you have been learning about.
Your piece of work can be presented in any way that you like!

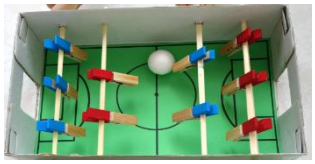
You have till the end of the tournament to complete the homework!
All work should be brought to school during the week of the **8th July**, ready for us to showcase to the rest of the school during worship the following week.

Any questions then please ask your class teacher!

You could create:

- An information booklet
- A country fact file
- Geographical information
- Historical information
- A piece of artwork
- Player portraits
- A PowerPoint presentation
- A poster
- A Lego model of a stadium
- A Minecraft creation of the country/team/stadiums
- Something you have made!

Be as creative as you like!



Your homework should be about the country/teams your class are supporting!

Good luck and have fun investigating and learning!
