Competition

Shire Catering Services are running a competition in conjunction with Muller.

With saving the environment at the forefront of everyone's mind, they wanted to find a way to help with this, so they have come up with a competition to help make that change.

Muller yoghurt pots currently can't be washed and reused, but Muller are in the process of developing an alternative. With this in mind, Shire Services would like children to invent another use for empty Muller yoghurt pots.

Get your creative juices following and hand your creation to Sharon in the kitchen by **Friday 10th November.**

Every child who enters will receive a sticker and all entries across Shire Services will be judged and the winner will receive a gardening set for their class. The winning entries will be put in a hat and the lucky winning school will receive educational Muller Farm visit for their class.

Winners of the gardening kit will be announced end of November and the farm visit winner will be announced early December.

We can't wait to see your creations!
